Re: Press Release for local non-profit 501(c)(3) corporation, Beyond the Limits, An Autism Resource Connection

FOR IMMEDIATE RELEASE

BEYOND THE LIMITS (AN AUTISM RESOURCE CONNECTION) HAS OPENED IN HENDERSONVILLE

Beyond the Limits, a non-profit 501(c)(3) Autism Resource Connection offering hope for families who have been impacted by Autism Spectrum Disorders (ASD) here in Tennessee was founded in April of 2006 by Antoinette Pazdro, the mother of a child with Autism.

A member of Hendersonville's Chamber of Commerce, **Beyond the Limits** has a mission to provide the most current information in biomedical research, testing, and treatment options for families who have children with Autism.

Opportunities for families to apply for available monies to help defray the costs of tests and treatments will be provided by **Beyond the Limits** through various fundraising events.

Autism effects one out of every 150 children born in the U.S., according to the Centers for Disease Control (CDC). Autism is treatable, and some children are recovering.

For more information about **Beyond the Limits**, or to learn how you or your company can help children with autism here in our own community, visit beyondthelimits.org to see current information and upcoming fundraising events.

We can all help make a difference in the lives of these special children. Please show your support at www.beyondthelimits.org.
